

# Fundamental Measurement

As per Mark Robinson's letter of 7<sup>th</sup> July, it is each competitor's responsibility to ensure that ALL their equipment is measured and that they have a certificate/measurement for it. If you do not have a fundamental measurement form or it is not signed/stamped by your national association, then you will either not be allowed to race or be subject to a measurement protest during the event which could lead to disqualification.

A Fundamental Measurement service will be provided for competitors. This will be undertaken by a number of UK Measurers, who are giving up their time to assist fellow competitors.

- Sails/Boats need to be booked in to a SPECIFIC TIME SLOT and you MUST ATTEND when your sail is measured - YOU CANNOT JUST DUMP IT AND EXPECT IT TO BE MEASURED
- If you have MULTIPLE sails then you will need to book CONSECUTIVE slots, they cannot be measured simultaneously.
- Below is a schedule of the days measurement will be provided and the time slots. We also provide the number of measurers available for sails. There will be only a single measurer for boats.
- This means if there are 2 measurers then 2 sails can be measured in a slot, 3 measurers then 3 sails can be measure in a slot.

## Booking Process

- Please send an e-mail to [mothworlds@blueteq.co.uk](mailto:mothworlds@blueteq.co.uk) stating
  - Competitor Name, Sail Number and Country
  - Preferred date and time and alternative (see schedule below)
- The available slots will be assigned on a first booked, first allocated basis.
- You will receive an e-mail confirming the date and slot time allocated. If the preferred and alternative slot is already taken you will be advised by e-mail

**We strongly advise that you book measurement slots at the earliest opportunity.** UK measurers will not provide this service outside of the hours outlined below. If you do not use this service you will need to make your own arrangements with other class measurers.

From 12<sup>th</sup> July measurers will be on site and competitors can book a slot by coming to the measurement area (Marine Shed at HISC) when measuring is being done.
